

REMAKE

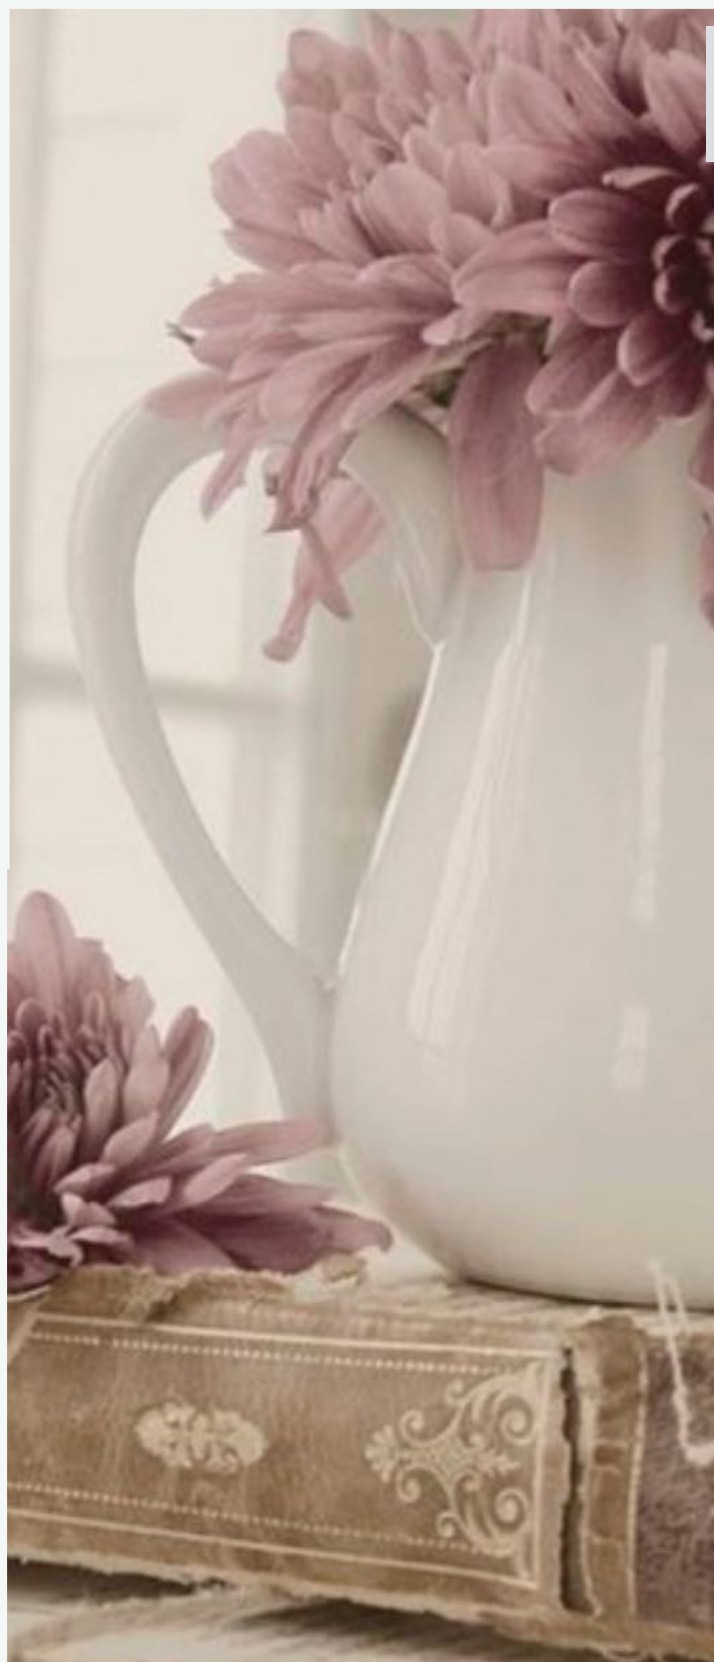

A sustainable life is now obtainable and with this comes a renewed passion for craft and all things from hand to land. We are seeing a lot more city dwellers escaping to the countryside to become urban farmers. We have seen a rise in craft workshops moving away from knitting now to pottery and quilting classes. This trend continues into AW19 with a mood for all things 're made'. Vintage items are to be sought out in thrift stores and customised. This mood draws inspiration these thrift stores and findings of chintz fabrics and bespoke laces, to create a feminine layered feel for Autumn.
