

In an increasingly connected world, we run the risk of isolating ourselves in both working and learning environments. Relaxed co-working spaces allow us to collaborate, whilst sharing skills and knowledge becomes a new means of empowerment. This transitional trend gives classic collegiate looks a business casual twist. Slouchy silhouettes are contrasted alongside playful 1960s shapes. Graphic stripes and checks are interrupted and pieced together to create a fresh and youthful edit of office wear. Abstract lace pieces are styled with boyfriend fit knits and tailoring for an effortless boy-meets-girl look.
