

SUMMER

TOKYO FUSION

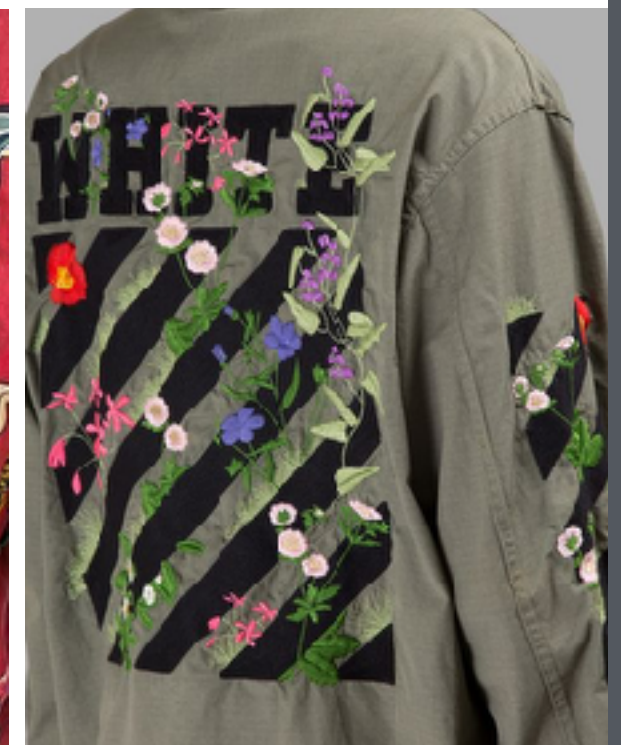

JUNGLE BLOOM

SS2020 will be the season of prints, where we see a visual clash of cultural symbols. The mix of recognised subcultures, unique styles, Japanese influences, distinctive floral prints and references to tropical pop-art images, gives rise to an experimental teenage style, which this theme is devoted to. Key aspects of the theme are a symbiosis of sports street fashion, kitsch floral prints and bright vibes.

Track Pants

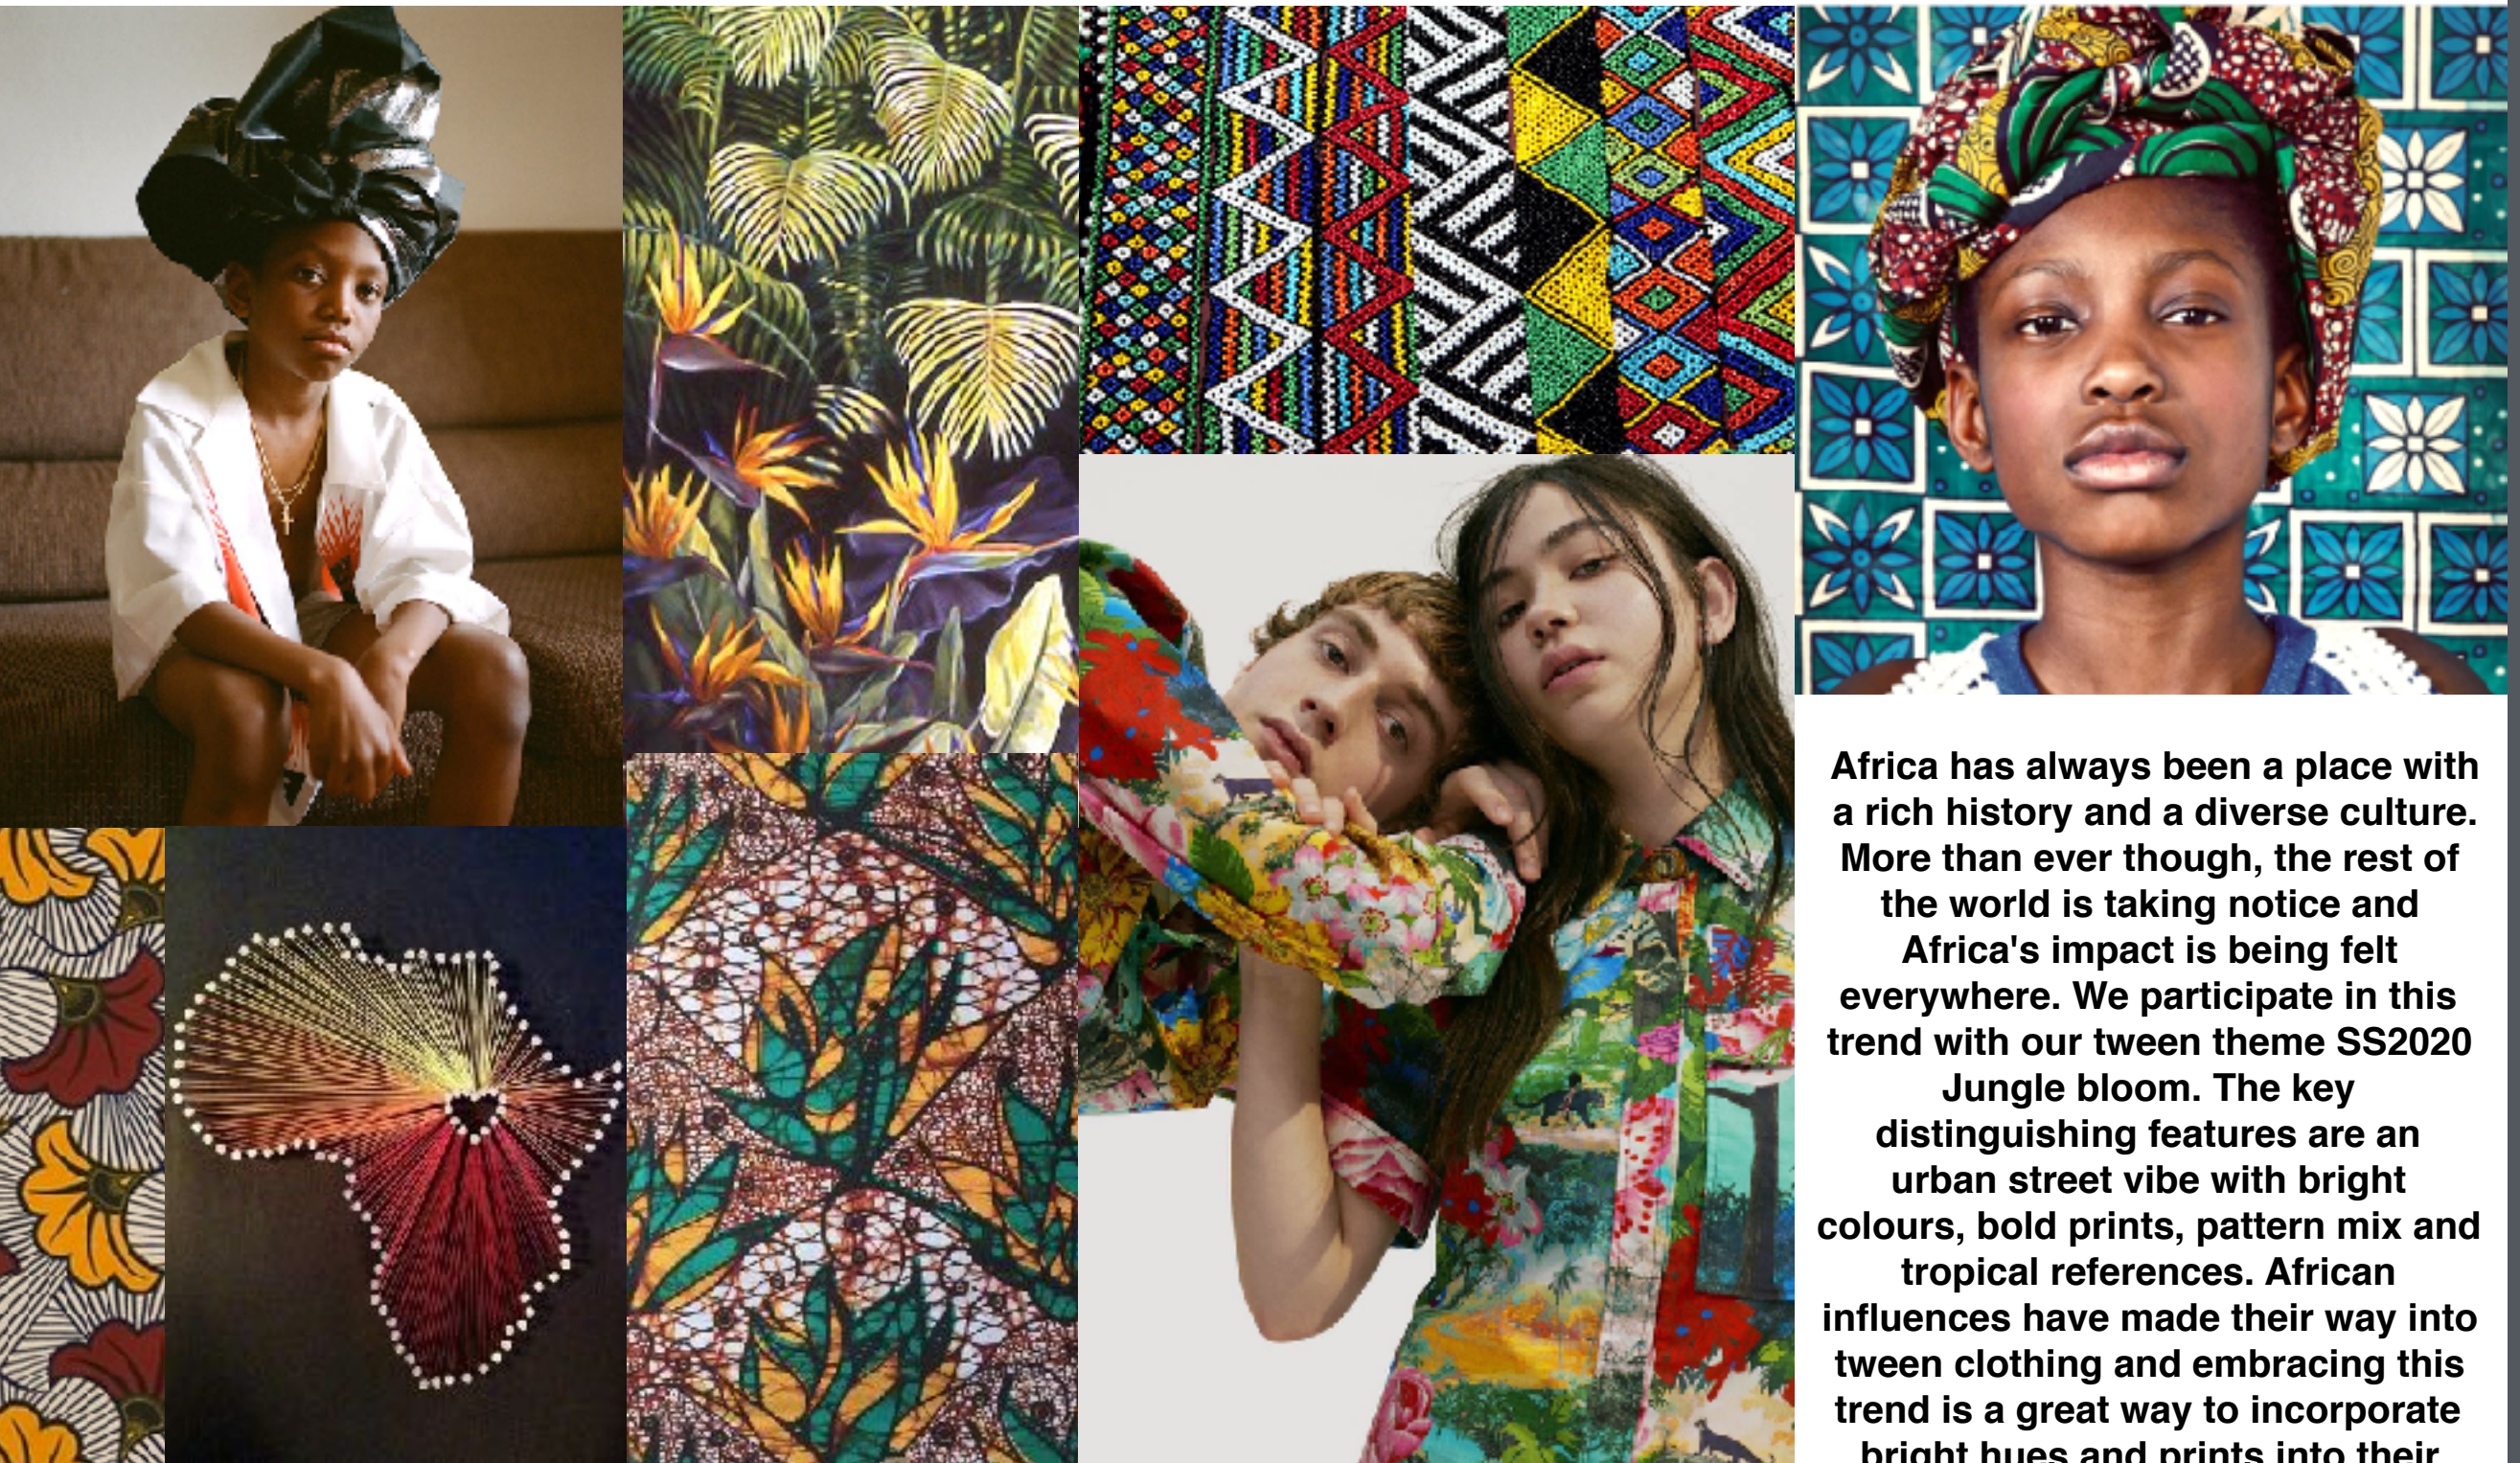

06. Tropical Print Shorts

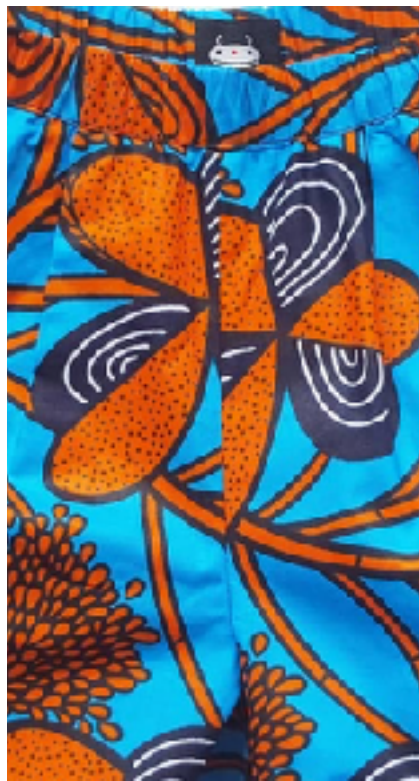

05. Blue+White
Cutoff Denim Shorts

TOKYO FUSION

Africa has always been a place with a rich history and a diverse culture. More than ever though, the rest of the world is taking notice and Africa's impact is being felt everywhere. We participate in this trend with our tween theme SS2020 Jungle bloom. The key distinguishing features are an urban street vibe with bright colours, bold prints, pattern mix and tropical references. African influences have made their way into tween clothing and embracing this trend is a great way to incorporate bright hues and prints into their closet.
