

Cat Faces

The Trend Bunker Team have been tracking the black and white and cat trend.

Cats have always been a firm kids wear favourite but what we particularly like is the black and white trend coming through, for all things cat like! From mugs to nail art, these funky felines are perfect for all genders and age groups for kids.

The need for black and white on shop floors to cleanse the colour palette is always a must as we come into a new season.

Break up the black and white with a neutral.

CAT FACES

Large scale and all over cat faces are great for leggings and joggers. Add that highlight of pink for the girls!
